Product & Design	GitHub, Jira, ADO, Agile/Scrum, CI/CD Pipelines
Testing	Vitest, Playwright, Jest, Cypress, React Testing Library

EMPLOYMENT

Consultant — Full Stack Developer │ Slalom Consulting   Jun 2022 — Present

`AEM | JavaScript | React | Java | TypeScript | Claude Code`

- Lead developer on enterprise AEM implementations for clients including Dentaquest and Mass General Brigham, delivering CMS solutions, platform migrations, and website redesigns
- Specialize in Adobe Experience Manager (AEM Sites & Assets), building custom components, workflows, and integrations using Java, JavaScript, and React
- Pioneer AI-augmented development practices — leveraging Claude Code and prompt engineering to accelerate delivery, improve code quality, and automate repetitive tasks
- Lead client demos, discovery sessions, UAT, and developer training; mentor junior developers on AEM architecture and best practices
- Promoted from Associate Consultant to Consultant within 6 months; nominated for Employee of the Quarter

Fullstack Web Developer │ Freelance   Sep 2021 — Jun 2022

`JavaScript | React | Redux`

- End-to-end development as a solo practitioner — taking client needs from concept through deployment
- Built responsive web applications with React, Redux, and modern JavaScript
- Managed full project lifecycle including client communication, requirements, development, testing, and delivery

Frontend Web Developer │ Range Trainer Pro   May 2021 — Aug 2021

`JavaScript | React | Redux`

- Developed JavaScript algorithms to transform user input into backend-compatible data structures, enabling flexible yet customizable data entry
- Built and maintained reusable React components with Redux for state management

Professional Poker Player │ Self Employed   2009 — 2020

- World Series of Poker bracelet winner with career net profits exceeding $2 million
- Applied data analysis, probability theory, and risk management to inform strategic decision-making
- Self-directed career requiring exceptional discipline, bankroll management, and performance under pressure

PROJECTS

Portfolio Website — AI-Augmented Modernization   2024

`React 18 | TypeScript | Vite | Vitest | Playwright | Claude Code`

- Modernized personal portfolio from CRA/JavaScript to Vite/TypeScript using AI-augmented development with Claude Code
- Implemented comprehensive testing: 73+ unit/integration tests (Vitest) and 33+ E2E tests (Playwright)
- Achieved WCAG AAA accessibility compliance with semantic HTML, keyboard navigation, and ARIA attributes

Dentaquest Website — Enterprise AEM Implementation   2023

`AEM | Java | JavaScript | React | SCSS`

- Built responsive React SPA components integrated into Adobe Experience Manager architecture
- Delivered enterprise-grade CMS solution for a leading dental benefits provider

Mass General Brigham Website — Enterprise Redesign   2022—2023

`AEM | Java | JavaScript | jQuery | SCSS`

- Led website redesign with AAA accessibility compliance for Massachusetts' largest healthcare employer

Boys & Girls Club Emotion Tracker — Capstone Project   Mar 2021

`React | Java | Spring | Okta | Ant Design`

- Full stack application allowing children to provide real-time feedback, giving staff actionable data
- Architected Spring backend designed to scale from 4,400 to 4,000,000+ users
- Agile workflow with regular stakeholder meetings ensuring strict adherence to requirements

EDUCATION

Bloom Institute of Technology │ Full Stack Web Development & Computer Science   May 2021
